

Raghav Herugu

18y/o — Developer — Finance & Trading Enthusiast
raghav.s.herugu@gmail.com — +1 (732) 285 2670 — LinkedIn: **in**

Skills

Front-end: React.js, **TypeScript**, TailwindCSS, Recharts/ApexCharts, Responsive UI, Component Design Systems
Technical: Node.js, Python, Django, MongoDB, ExpressJS, REST/GraphQL APIs, React Native, Chart.js, TradingView, GitFlow, GitHub Actions (CI/CD), Jira
Finance/Trading: Futures & Options (ES/NQ), Risk Management, Quantitative Strategies, AUM Operations, Gamma/Vanna Analysis
Other: AI/LLM Development (custom GPTs, agents, AGI/MCP), Leadership, Economics (Macro/Micro), Research, Biotechnology

Experience

Vexly — Intern

Jul 2024 — Present

- Helped develop AI trading-signal LLMs and agent workflows that achieved a **70% winrate** on ES futures.
- Maintained trading tools and pipelines supporting a **\$500K AUM** systematic futures program.
- Built trading front-end in **React + TypeScript**, delivering real-time dashboards with Chart.js and TradingView.
- Integrated Polygon API for live market data and automated order execution experiments.
- Designed **interactive drill-down dashboards** with filters, sortable tables, and real-time updates.
- Engineered **5+ proprietary quant indicators**, heatmaps, and gamma/vanna metrics used daily.
- Implemented **CI/CD pipelines with GitHub Actions**, automating testing, builds, and deployments.

iCIMS — Software Engineering Mentee (Web)

Jan 2025 — Jun 2025

- Mentored by senior engineers on a production SaaS platform with **10K+ daily users**; shipped features end-to-end.
- Built reusable React (TypeScript) components and hooks, improving developer velocity by **20%**.
- Integrated REST/GraphQL APIs and enhanced performance with **30% faster load times** via code-splitting/lazy loading.
- Wrote unit tests with Jest/RTL; contributed to **15+ code reviews**, sprint planning, and standups.
- Partnered with UX to meet WCAG AA accessibility; automated CI checks in GitHub Actions.

Greenstick LLC — Co-founder & CFO

Jun 2024 — Present

- Launched AI-driven financial education platform with **50+ active users** and interactive trading simulations.
- Built modern front-end in **React + TypeScript + Tailwind**, including modals, tables, and reusable components.
- Developed dashboards with real-time charting (Chart.js/TradingView), user filters, and mobile-responsive layouts.
- Built quant-based courses, algorithm generators, and signals; owned product content and UX.

JILA — Co-founder

Jun 2023 — Present

- Created local-economy platform providing tax rebates/vouchers; presented to **50+ town officials**.
- Built React front-end with MongoDB/Express.js back-end; integrated Stripe; engineered admin/business modules.

LocalMainStreet — Founder

Mar 2020 — Sep 2022

- Supported **90+ small businesses** during COVID-19 with website & mobile app (React, MongoDB, Stripe).
- Recognized by Marlboro Economic Development Committee & Mayor; led merchant outreach.
- Personally built full-stack platform (front-end React.js, MongoDB DB, Stripe payments); onboarded businesses door-to-door.

doForms — Intern

May 2023 — Oct 2023

- Conducted cross-browser testing across **5+ international teams** to ensure seamless performance.
- Contributed React.js components and optimized data structures, improving scalability by **25%**.

Funded Day Trader

Jun 2023 — Present

- Funded on **ApexTraderFunding (\$25K & \$100K)** and **Topstep (\$50K)** accounts.
- Execute futures strategies daily generating **consistent weekly profits**.

Selected Projects

Books2Go — Creator

Aug 2021 — Feb 2022

- Built community book-sharing app (React Native, MongoDB) used by **100+ students**; district winner in Congressional App Challenge.

Research — Author (ML for Early Cancer Detection)

Sep 2022 — Sep 2023

- Published peer-reviewed study on Oral Squamous Cell Carcinoma; applied regularization & dropout to improve ML robustness on **5K+ images**.

Education

High Technology High School, New Jersey
University of Michigan, Ann Arbor

SAT: **1560** (800 Math, 760 English)
Major: Computer Science

Sep 2020 — June 2025
Aug 2025 — Present
